The proposed Bill would enact the Unidentified Human Remains DNA Database Act to allow: family members of a missing person; the Medical University of South Carolina or any other facility preserving the body of an unidentified person; and a coroner performing an autopsy on an unidentified body to submit DNA samples to the State Law Enforcement Division (SLED). SLED must conduct DNA identification, typing, and testing of the samples and enter the results into the State DNA Database and the National DNA Index System.

EXPLANATION OF IMPACT:

State Law Enforcement Division (SLED)

SLED reports it currently tests DNA samples related to this Bill, therefore, there will be no impact on the General Fund of the State or on Federal and/or other funds.

Medical University of South Carolina (MUSC)

MUSC indicates this Bill would have no impact on the General Fund of the State, or on Federal and/or Other Funds. MUSC is already complying with the requirements of this Bill and therefore foresees no additional fiscal impact.
